

EU *outsourcing*

Your American IT Company Abroad

www.euoutsourcing.com

Overview

EU Outsourcing is your American Information Technology company abroad.

Provide comprehensive offshore software development services to create valuable business solutions for our growing list of clients.

EU Outsourcing's software development and IT services address the full software development life cycle (SDLC). We leverage a well-defined and mature application development process which comprises the complete SDLC from business case analysis to warranty support of the application. Our mixed delivery model augments offshore software development with on site technical support and business analysis to provide a clear means of reducing software development costs, while improving the quality and compressing time to delivery.

Services

Turnkey Custom Software Development:

With EU Outsourcing as your partner, developing custom software solutions is painless and reliable. EU Outsourcing's operating methods, processes, and tools are focused on the quality of your solution and customer experience, earning EU Outsourcing the highest level of customer satisfaction.

e-Business

EU Outsourcing provides its customers with premier e-business solutions, blending excellent marketing presentation with full featured business applications to provide the best possible customer experience regardless of transaction volumes.

Outsourced Staff Augmentation

IT Departments have come to value having EU Outsourcing developers answer directly to their internal managers.

EU Outsourcing developers are often assigned to augment customer teams, adding much needed skills and experience, while taking direction from and answering directly to customer managers. Romania's U.S. friendly time-zone and EU Outsourcing's communications infrastructure makes staff augmentation both a reality and a success, more similar to working in different buildings than on different shores.

Marketing Sites

EU Outsourcing's 'Pen and paper' Artists, 'Graphics Design' Artists, and 'Business Centric' Artists bring the magic of your marketing vision to the internet with a 100 percent custom marketing site, specifically tailored to you.
